## **PENCCO, INC. OPENS NEW ARIZONA MANUFACTURING FACILITY IN GLENDALE**

*The family-owned water and wastewater treatment chemical manufacturer expands production capacity*

**Glendale, Arizona** – Pencco, Inc., a family-owned manufacturer of water and wastewater treatment chemicals, has opened its new Arizona manufacturing operation in Glendale. This marks a significant expansion of the company’s production capabilities and its continued investment in water infrastructure across the Southwest.

Pencco’s Glendale facility is located at 5090 West Camelback Road. It will manufacture specialty chemicals used by municipal, mining, and industrial customers to treat drinking water and wastewater, supporting safe, reliable water systems for growing communities throughout the region. The project is also expected to create new manufacturing and technical jobs in Arizona while strengthening domestic supply chains for critical infrastructure.

“Building in Arizona was a deliberate decision” said Ron Horne, President and Founder of Pencco, Inc. “We wanted to bring manufacturing back to the Valley and to offer our sustainably sourced and manufactured products to the region. Quality is of the utmost importance to our business. We are proud to be leading the industry on green manufacturing practices and clean products.”

Founded in 1984, Pencco, Inc. has remained family owned and operated since its inception, with a strong focus on sustainable sourcing, reliability, and long-term partnerships with water utilities.

The Arizona location represents the company’s commitment to U.S.-based manufacturing and responsible growth in regions where water management is critical.

“I am proud to welcome Pencco, Inc. to Glendale,” said Mayor Jerry P. Weiers. “Pencco is a valuable addition to our city’s growing portfolio of manufacturing and industrial partners. Their decision to locate in Glendale brings new jobs to our community and creates a unique opportunity for collaboration with our Water Services Department.”

**About Pencco, Inc.**

Pencco, Inc. is a family-owned manufacturer of water and wastewater treatment chemicals serving municipal and industrial customers across the United States for over 40 years. With a commitment to quality, safety, and environmental responsibility, Pencco is your neighbor and partner in water and wastewater treatment.

**About the city of Glendale**

As the sixth largest city in Arizona, with a population of nearly 255,000, Glendale is a premiere destination to live, work and play. Glendale features premium entertainment and shopping opportunities and a growing list of signature companies that call our city home. The city is also home to Luke Air Force Base and major defense contractors, including Lockheed-Martin, Magellan Aerospace and Honeywell. Other major employers include Red Bull, Global Credit Union, Ball, Bechtel and Nestlé. From major international manufacturers, Fortune 100 firms and luxury auto dealers to locally owned small shops and restaurants, Glendale provides the ideal location for businesses to arrive and thrive. Employers will also find access to robust and qualified talent pipelines, with six postsecondary educational institutions. State Farm Stadium and Desert Diamond Arena in Glendale's Sports and Entertainment District host hometown team the Arizona Cardinals, as well as mega events such as the Super Bowl and NCAA Final Four. Camelback-Ranch Glendale is the spring training home of the Los Angeles Dodgers and Chicago White Sox.
