Executive Summary

AP-05 Executive Summary - 91.200(c), 91.220(b)

1. Introduction

As a recipient of Community Development Block Grant funds, the City of Glendale, Arizona is required to submit an Annual Action Plan (AAP) under Federal Regulations at 24 CFR Part 91. The purpose of the Year 4 Annual Action Plan is to review and update the assessments presented in the City of Glendale's Five-Year Consolidated Plan for Fiscal Years (FY) 2015-2019. In addition, the AAP identifies the City's housing and community development needs; analyzes the housing market; establishes housing and community development priorities, goals and strategies to address the identified needs; and identifies the resources available from the Community Development Block Grant (CDBG) and Emergency Solutions Grants (ESG); as well as the HOME Investment Partnership Program (HOME) received through the Maricopa HOME Consortium. Any program income received under these grants is also used to address the identified needs.

This Program Year 4 AAP implements the fourth year of activities that will address goals established by the City of Glendale's (the City's) FY 2015-2019 Five-Year Consolidated Plan.

As an entitlement city, Glendale receives its CDBG and ESG funding directly from HUD. The CDBG entitlement for Fiscal Year (FY) 2018-19 will be \$2,475,175. As a recipient of CDBG funds, the City is required to submit, at the end of each program year, a Consolidated Annual Performance and Evaluation Performance Report (CAPER). The CAPER summarizes the accomplishments of the ending program year and the progress made towards the goals established in the Consolidated Plan.

The CAPERs for Fiscal Years 2015-2016 and 2016-2017 were reviewed to assist with the formulation of goals and objectives as stated in this Plan. The resources that are available to fund needed services of the City are limited, and, therefore, limit the amount of services that can be provided under these activities.

The City addressed the Decent/Affordable Housing and Homeless objective by funding homeowner and rental housing rehabilitation activities, code enforcement, homeless assistance, homebuyer assistance, and homes acquired for rehabilitation and resale. The City addressed the Suitable Living Environment objective by funding home modifications for persons with disabilities, demolition of dilapidated structures, public facility renovations, infrastructure improvements, and public services that assist seniors, youth, and homeless persons, and address fair housing issues. In addition, the City addressed the Expanding Economic Opportunities goal by providing funding for visual improvements for downtown businesses. The City is committed to monitoring outcomes compared to intended objectives, evaluating their effectiveness in addressing community needs and reprogramming funding, if needed.

The City met all of its statutory requirements including the CDBG 1.5 expenditure ratio, public service and administrative caps, ESG caps, and HOME commitment requirements. The City continues to compare local needs against available funding and will reprogram funds as required to address priority needs.

4. Summary of citizen participation process and consultation process

Citizen participation is a key component of the consolidated planning process. Glendale residents, especially those who are low-income or likely to be beneficiaries of federal CDBG, HOME, and ESG funding, are encouraged to participate in the development of the Year 4 Annual Action Plan, any substantial amendments and the CAPER. Per 24 CFR Part 91.105, citizen participation requirements should guide the development of the Consolidated Plan process. As part of the Maricopa HOME Consortium, the City of Glendale is a party to the Consortium's FY 2015-2019 Citizen Participation Plan. The plan was reviewed and it was determined that the City's citizen participation process is consistent with or exceeds the Consortium's requirements. For the program year 4 Annual Action Plan for FY 2018-2019, the City used a comprehensive process and strategies to elicit public comments which included:

- Publishing newspaper advertisements
- Distributing information on the City's website
- Contacting representatives of non-profits agencies and other stakeholders to notify them of the grant application process
- Holding presentations and public hearings before the Community Development Advisory Committee (CDAC). The CDAC is a housing and community development advisory citizen committee appointed by the Mayor and City Council to oversee the annual grant application process and facilitate citizen participation in the CDBG, HOME, and ESG funding process, as well as the Consolidated Plan and Annual Action Plan processes. The CDAC conducts public hearings and meetings, reviews funding requests, and makes recommendations to the City Council on resource allocation
- Soliciting input from City of Glendale Planning, Economic Development, Building Safety, Water and Environmental Resources, and Marketing Departments
- Soliciting input from the City's Community Housing Division which administers the City's public housing and section 8 voucher programs as well as the City's Community Action Program
- Soliciting input from regional organizations including the Maricopa Association of Governments, ESG Collaboration Group, Maricopa HOME Consortium, and the Continuum of Care
- Publishing the Year 4 Annual Action Plan for a 30-day comment period from March 16, 2018, through April 20, 2018 and again from May 4, 2018, through June 4, 2018. An electronic copy of the AAP was placed on the City's website and hard copies were made available for review at City Hall, libraries, and other community locations
- Acknowledging comments received during the public comment period

Accommodations for public meetings and information on the Annual Action Plan were also made available for persons with disabilities, including the hearing impaired, and persons with Limited English Proficiency.

Meetings were held in the evenings and at times that would be convenient for working families including households with children.

5. Summary of public comments

The Year 4 Annual Action Plan was available for public comment for a 30-day period starting March 16, 2018 through April 20, 2018 and May 4, 2018, through June 4, 2018. No comments were received during the comment period from the general public.

6. Summary of comments or views not accepted and the reasons for not accepting them

No comments received were rejected by the City.

7. Summary

The City has established objectives and outcomes for the use of federal CDBG and ESG funds. In addition, the City, through the Maricopa HOME Consortium, has established objectives and outcomes for the use of HOME funds.

The City utilizes a citizen participation plan to guide the process for identifying the projects and activities that will be funded in an effort to address the objectives and outcomes identified. The CDAC is an integral part of that process.

Through this process, for FY 2018-19, the City will fund public service activities, housing activities, public facility projects and public improvements to assist the elderly, youth, disabled, homeless and other low and moderate income residents.

8. Contingency Provision

The Fiscal Year 2018-19 actual funding allocations for the Community Development Block Grant (CDBG), HOME Investment Partnerships Program (HOME), and Emergency Solutions Grants (ESG) had not been made available by the U.S. Department of Housing and Urban Development (HUD) as of the date of the preparation and distribution of the original draft Annual Action Plan for public comment. Funding allocation amounts presented in the draft Annual Action Plan, therefore, were based on the funding allocations received by the City in Fiscal Year 2017-18.

Actual funding allocations received in Fiscal Year 2017-18 were \$2,270,348 for CDBG, \$514,115 for HOME, and \$189,758 for ESG.

In its operation of the federal block grant programs, the City works with local and statewide governmental agencies and non-profit organizations, as well as other City departments, to ensure funds are allocated equitably and related services are provided to the City of Glendale residents.

Provide a concise summary of the jurisdiction's activities to enhance coordination between public and assisted housing providers and private and governmental health, mental health and service agencies (91.215(l)).

The City consulted with public and private agencies, the state and the public housing authority for preparation of the Year 4 Annual Action Plan.

The City provides funding for several social service providers that are based in Glendale, AZ to provide services to the residents of Glendale. These agencies include the Boys and Girls Club and Arizona YWCA of Metro Phoenix. The City's Community Housing Division is responsible for addressing the rental housing needs of low and very low-income Glendale households that cannot afford housing in the private market through the administration of the federally funded Section 8 Housing Choice Voucher program and Conventional Public Housing programs. The City provides CDBG public services funding to support seniors, disabled, youth, education, homeless prevention, food banks, and other social services.

The City consulted with its housing authority, which is a City Divisional Unit, by including staff representatives in the public meetings and conducting interviews with housing authority management. The housing authority's Action Plan was also reviewed.

In addition, the City consulted with staff from related City departments, specifically the City's Community Action Program (CAP) that assists low-to-moderate income residents experiencing financial hardships or crisis. CAP provides various types of assistance to prevent homelessness, such as case management, information and referral to local social service agencies. CAP provides direct financial assistance for eligible households. The Glendale CAP partnered with Glendale 11, a local television station, to prepare a video information guide for those seeking assistance with rent, mortgage and utility bills. The video explains the appointment policy, eligibility requirements, required documentation, rules, and regulations for those applicants residing in government housing, receiving child support, social security benefits, or veterans' assistance benefits. The video includes frequently asked questions and contact information and is posted on the City's website.

Describe coordination with the Continuum of Care and efforts to address the needs of homeless persons (particularly chronically homeless individuals and families, families with children, veterans, and unaccompanied youth) and persons at risk of homelessness.

The City of Glendale is a participant in the Phoenix/Mesa/Maricopa County Regional Continuum of Care (CoC) and is a member of the Maricopa Association of Governments (MAG). The City provides support to the Maricopa Continuum of Care and countywide non-profits that provide services to persons who are homeless, including chronically homeless. The CoC Committee is made up of service providers, funders, and other partners involved in addressing homelessness.

The MAG Continuum of Care Regional Committee on Homelessness is responsible for developing the Regional Plan to End Homeless and prepares the CoC application for funding to support homeless assistance programs. The City participates in monthly Continuum of Care Board and Committee meetings.

The City, and others including the Maricopa Association of Governments (MAG), Department of Economic Security (DES), City of Phoenix, Maricopa County, City of Mesa, and Valley of the Sun United Way, participate on the ESG Collaboration Group. The ESG collaboration group meets once a month to coordinate best practices and consistent procedures related to the ESG program performance standards and efforts to end homelessness.

In addition, the City participates on the Outreach Committee, which consists of nonprofit outreach providers, MAG, City of Mesa, City of Phoenix, City of Chandler, Maricopa County, and others. This group meets once a month to coordinate best practices, and standardize data collection and sharing.

The City of Glendale participates with MAG's regional Point-In-Time Homeless Street and Shelter Count and provides data to HUD for the Housing Inventory Count Report. The City utilizes this data to develop strategies to address homelessness.

The City also participates on the MAG Human Services Council, Ending Chronic Homelessness Workgroup, and the Rank and Review Panel for McKinney-Vento funding allocation, and is serving on the Homeless System Analysis Leadership Group.

Describe consultation with the Continuum(s) of Care that serves the jurisdiction's area in determining how to allocate ESG funds, develop performance standards for and evaluate outcomes of projects and activities assisted by ESG funds, and develop funding, policies and procedures for the operation and administration of HMIS

The City receives ESG funds and consults with the Continuum of Care (CoC) as part of the process to prioritize the needs to address homelessness, the allocation of ESG funding, and performance standards. To ensure the participation of the homeless population in the planning process, the City of Glendale engages in regional activities and dialogue with the CoC Committee on Homelessness. The City invited staff from the Maricopa Association of Governments (MAG) to attend a meeting of the Community Development Advisory Committee to obtain input on goals and priorities for the FY 2018-19 grant funding.

process. MAG staff are also invited to participate in monthly Maricopa HOME Consortium meetings. The City attends CoC Board and Committee meetings to gather information on the issue of homelessness. The City also partners with other ESG recipients and the CoC, through MAG, through the ESG collaborators work group in an effort to standardize and simplify the funding and outcomes process for providers.

The City's collaboration results in the most current and accurate information available to design and implement necessary housing and social service assistance to bring homeless persons back into our workforce, schools, faith-based institutions, and other community institutions as well as facilitate them becoming stable. An example of a successful regional collaborative effort is the region's Annual Homeless Count. The City will focus on homeless prevention, shelter, and rapid re-housing activities with its limited ESG funding. Through these efforts, the City is able to use information from the CoC to determine the best method to allocate funding to non-profit agencies.

The City of Glendale's local homeless coordination effort will manage homeless efforts across departments and with external agencies, act as a point of contact to educate, collect homeless data, conduct outreach and provide onsite assistance to first responders. The City will continue to collaborate with the MAG/CoC Committee on homelessness to assist with the regional homeless survey to ensure homeless participation. The survey will be conducted on the streets and through the City's non-profit partners to assist with planning and strategy development for the specific needs of homeless families and individuals. Components of the survey will include:

- Understanding the nature and extent of the current trends in homelessness in Glendale
- Responding to the unmet needs and gaps in services for homeless individuals and families
- Developing local community and countywide strategies to meet the goal of ending homelessness

The City has consulted, and will continue to consult, with the CoC regarding the performance standards for activities funded under ESG to discuss the best method to capture data utilizing HMIS. Some general performance standards that will be used are:

- Unduplicated number of persons or households prevented from becoming homeless
- Unduplicated number of persons or households assisted from emergency shelters into permanent housing
- Timely distribution of funds

As the program progresses, performance standards will be developed based on the needs of the community and regulatory guidance. All outcomes will be reviewed and measured for effectiveness, as required.

Narrative

In accordance with Annual Action Plan requirements, the City solicited public comments on the Year 4 Annual Action Plan. Public hearings and public meetings were conducted before the Community Development Advisory Committee (CDAC) to gather input from citizens, community agencies, and from City departments.

Public Hearings held in January 2018 and May 2018 not only included setting priorities and reviewing applications for funding, but also provided an opportunity to gather information from the CDAC, citizens, community agencies, and from City departments.

Specifically, the CDAC conducted a public hearings during the 30-day public comment periods on January 3rd and 10th, 2018 and May 17, 2018, and the Glendale City Council conducted a public hearing on June 26, 2018, prior to approving the Annual Action Plan for submission to HUD. (Submission of the Annual Action Plan was delayed due to a HUD delay in providing the FY 2018-19 funding allocations to the City.)

In order to ensure broader participation, residents were given multiple opportunities to comment on the plan during the plan development and the completed plan was available for a 30-day comment period. Efforts were made to provide accommodations and give opportunities to persons with disabilities and persons with Limited English Proficiency to provide input and public comments. Some provisions were made to provide auxiliary aids to persons with disabilities, the notices and Plan documents could be provided in alternative formats and public notices were available to non-English speaking individuals. Meetings were held at a time of day that would facilitate the participation of members of the public who work and information and notices were provided through the City's website for persons not wishing or able to attend meetings.

Expected Resources

AP-15 Expected Resources – 91.420(b), 91.220(c) (1, 2)

Introduction

The City of Glendale receives Community Development Block Grant (CDBG) and Emergency Solutions Grants (ESG) funding directly from HUD as a participating entitlement jurisdiction. The City also receives HOME Investment Partnerships Program (HOME) funds from Maricopa County as a member of the Maricopa HOME Consortium. The first year funding for the Five-Year Consolidated Plan was confirmed by HUD and used as a basis to estimate the available federal resources for the five year period by multiplying the first year allocation by five. In subsequent years, the actual annual allocation for each year may vary depending on appropriations for Community Planning and Development programs. Goals, objectives and activities have been adjusted in the Year 4 Annual Action Plan to accommodate anticipated funding amounts. The City also factors in an estimate of program income that is to be received each year.

Table 5 - Expected Resources – Priority Table

Explain how federal funds will leverage those additional resources (private, state and local funds), including a description of how matching requirements will be satisfied

During FY 2018-2019, the City of Glendale will be utilizing HOME funds from the Maricopa HOME Consortium for the City's Housing Rehabilitation programs and to fund the construction of new affordable housing in partnership with Habitat for Humanity. HOME funds will be combined with CDBG housing rehabilitation funds to assist residents. For new construction of housing for ownership, HOME funds will be leveraged with private sector funds, along with labor and material donations in partnership with Habitat for Humanity. For housing programs that may include downpayment and closing cost assistance for new homeownership opportunities, the federal funds may be leveraged with first mortgages. Required HOME match will be provided through donated time, services, and dollars from Habitat for Humanity. In addition, the City contributes general funds to assist with the HOME match requirements.

Funds for public improvements including physical improvements to public facilities and City parks will be leveraged with the City general fund allocations to benefit City residents. CDBG funds for demolition will be leveraged with general funds to achieve the City's objectives. General fund allocations are contained in the City's budget. The planning and administrative costs of managing the federal grant programs such as some staff costs are also funded from general fund dollars.

If appropriate, describe publicly owned land or property located within the jurisdiction that may be used to address the needs identified in the plan

Discussion

The City does not have access to surplus land for the purposes of building affordable housing. Any acquisition would happen through the actions of a non-profit organization.

While Glendale does not have access to surplus land to devote to building affordable housing, the City will be converting \$100,000 of NSP 1 Program Income to CDBG funding to further affordable housing efforts by allocating the entire conversion amount to the Residential Rehabilitation Program.

Describe the reasons for allocation priorities and any obstacles to addressing underserved needs

Allocation Priorities

CDBG: Allocation priorities for the use of CDBG funds were based on the City's housing and community development needs assessment contained in the Consolidated Plan, deliberations of the Community Development Advisory Committee (CDAC) and City Council, as well as funding applications received through the City's competitive grant application cycle. The competitive application process relies on specific criteria to ensure that funds are allocated to the agencies that will use them in the most efficient and cost effective manner. Organizations providing housing and community development services to address underserved needs were also consulted regarding their current activity levels and the needs of their constituent population. The efficient use of previous year's resources and the field observations garnered by providers helped to determine levels of needs. The Comprehensive Housing Affordability Strategy (CHAS) data and other studies and planning documents were also used to guide the determination of priorities.

ESG: In addition to the above criteria such as the needs assessment, Request for Proposal responses, CDAC and City Council deliberations, and previous expenditures, the City consulted with the Continuum of Care

in determining allocation priorities for ESG funding. The Continuum of Care coordinates regional efforts to address homelessness and shelter issues.

Obstacles to Addressing Underserved Needs

Ongoing efforts to address the identified needs despite dwindling financial resources at the federal, state and local levels requires the City to focus its funding on the activities of highest priority. Housing market conditions related to demand and supply of both rental and homeownership, as well as the availability of affordable housing, also determined the use of housing-related funding such as HOME Consortium allocations. The amount of available funding is simply not adequate to meet the demand based on applications received by the City. The fact that many low and moderate-income households are cost burdened or severely cost burdened (spending more than 30% or 50% respectively of their income on housing expense) also remains an obstacle to addressing the underserved. The City is challenged to develop and implement a well-coordinated and integrated outcome-driven service delivery system that meets the City's housing and community development needs and goals.

AP-50 Geographic Distribution - 91.420, 91.220(f)

Description of the geographic areas of the entitlement (including areas of low-income and minority concentration) where assistance will be directed

The City of Glendale has identified low to moderate-income target areas where more than 51% of the populations are households with incomes at 80% of the Area Median Income as defined and adjusted annually by HUD. However, for the most part, the City does not direct its assistance based on those target areas. The Census Tracts which contain a higher concentration of low/mod income persons are 924, 925, 926, 926.01, 926.02, 926.05, 927.15 927.17, 927.18, 928, 930.01, and 930.02. The CDBG, ESG, and HOME regulations allow for resources to be allocated based on the income characteristics of beneficiaries. As such, the City allocates its resources for public service activities, affordable housing, and emergency home repair citywide. CDBG and ESG funding allocations for public service are allocated on a citywide basis. See attached maps illustrating the City's low to moderate-income target areas.

CDBG-funded public facilities and infrastructure improvement activities will be located in the City's low to moderate-income census tracts if they meet an area benefit national objective. Such activities will be carried out in the target areas and the City's Downtown Redevelopment Target Area (DRTA), as adopted by the City Council. Public facilities and improvements will be focused in zip codes 85301 and 85302.

CDBG funded public facilities and infrastructure improvement activities will also be carried out in non-designated areas. Such public facilities and improvement activities will benefit limited clientele (special needs) populations.

Generally, allocation of funds is not based on geographic priorities except that geography is factored in an allocation where an area benefit national objective is used under the CDBG program.

The Maricopa Association of Governments (MAG) administers the Continuum of Care process. The City of Glendale participates with the Continuum of Care Board and Continuum of Care Regional Committee on Homelessness. The CoC adopted a Plan to End Homelessness and oversees the implementation of the plan as well as the tracking of progress to meet the goals and objectives. MAG is currently in the process of updating its Plan to End Homelessness, and the City of Glendale is providing input into the development of the updated plan. MAG made a presentation to the City Homeless Team on the region in September 2017.

The City attends CoC Board and Committee meetings to gather information on the issue of homelessness. The City also participates on the ESG Collaborators work group, the outreach committee and a number of other subgroups in an effort to ensure that the City consults, collaborates and coordinates its homeless efforts with providers, funders and other interested partners.

Describe the jurisdiction's one-year goals and actions for reducing and ending homelessness including

Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs

In terms of assessing the individual needs of homeless persons, the CoC is supporting a countywide centralized intake and client tracking system with the goal of enhancing CoC services to better assist homeless persons.

The City of Glendale will use CDBG and ESG funding to assist homeless individuals, and families, and the agencies receiving the funding will conduct an assessment of the needs of the persons they plan to serve. The City will also continue educational outreach through police, fire, park rangers, faith-based organizations, and schools.

In order to determine the beneficiary eligibility for ESG assistance and the level and type of assistance needed to move the individual or family to stable permanent housing, ESG subrecipients must conduct an initial evaluation per 24 CFR 576.401. Evaluations must be conducted according to the centralized or coordinated assessment requirements under regulations at §576.400(d) and written standards at §576.400(e).

Eligibility and type of assistance will be determined during the intake application for households receiving Homeless Prevention and Rapid Re-Housing assistance. Income eligibility will be determined using the HUD standard for calculating annual income, specifically meeting the requirement that household income must not exceed 30% of the area median income as established by HUD and updated annually.

The City has also partners with nonprofit agencies and the Community Action Program to conduct outreach to homeless individuals several hours each week. Effort are targeted primarily in the downtown and surrounding areas.

Addressing the emergency shelter and transitional housing needs of homeless persons

In order to address emergency shelter and transitional housing needs of homeless persons, the City will continue to provide financial support to agencies that operate shelter facilities. In FY 2018-2019, the City will fund seven emergency shelters with ESG funding: A New Leaf Faith House; Streetlight USA; UMOM New Day Centers; Maggie's Place – The Michael House; Phoenix Rescue Mission; Circle the City; and Native American Connections – HomeBase.

Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again.

One of the goals identified in the Ten-Year Plan to End Homelessness is to advocate for intensive aftercare in order to ease transition for people exiting emergency and transitional shelters. The agencies the City funds take action to ensure that persons moving to permanent housing achieve housing stability. The City supports the need to transition homeless individuals and families into permanent housing and independent living as soon as reasonable by continuing to make homeless vouchers available. In addition, the City will provide ESG funds to three activities specifically addressing rapid re-housing of homeless individuals.

Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions) or, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs.

During the program year, the City will provide CDBG and ESG funding for homeless prevention activities that include emergency rental/utility assistance payments and rapid re-housing services.

Specifically, the City's Community Action Program will receive CDBG funding of \$50,000 that will assist persons with incomes at or below 50% AMI. The City also plans to utilize ESG funds for Rapid Re-housing programs. CASS and A New Leaf will receive ESG funding from the City in FY 2018-2019 for their rapid re-housing activities. Rapid re-housing programs provide case management, support services, referrals for services, and financial rent assistance. The objectives of the program are to improve the life and social

skills of participants, increase awareness of community resources, and assist participants to obtain employment and maintain permanent housing.

The City will also maintain long-term rental assistance through Section 8 vouchers and 155 public housing units.

Discussion

In addition to HUD resources, the City of Glendale Community Action Program (CAP) receives funding from a number of federal, state and local sources to assist the elderly, disabled and other low and moderate income residents with a number of services designed to help keep families stable in their homes.

The City has adopted a local homeless coordination effort across departments and with external agencies to educate, collect homeless data, conduct outreach, and provide assistance to first responders. The City also participates in the annual point-in-time homeless count coordinated through the Maricopa Association of Governments.

In addition, Glendale staff have engaged with local church groups and coalitions to help build communication and coordinate efforts to address the needs of the homeless and related populations.

City staff have joined the Glendale Strong Families Network made up of individuals from the local schools, nonprofits, state and local governments, and others in an effort to reduce the number of Arizona Department of Child Safety (DCS) – involved children and families. The City is actively working to establish a coordinated entry workgroup and homeless system workgroup to streamline and make more efficient the procedures already in place to assist Glendale’s homeless.

AP-75 Barriers to Affordable Housing - 91.420, 91.220(j)

Introduction

According to the City of Glendale's Analysis of Impediments to Fair Housing Choice 2015, the most common identified barrier to affordable housing is the cost burden and severe cost burden faced by both renters and owners. Some costs include the cost of land, cost of construction and infrastructure, permit fees, impact fees, developer interest, taxes, zoning, lack of rental supply, an increase in rents by 30% this last year, and insufficient financial resources.

Actions is planned to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment:

The actions that will take place in FY 2018-2019 to remove barriers to affordable housing include:

- Reduce permit fees when applicable / feasible
- Reduce impact fees when applicable / feasible
- Down payment assistance for income-qualified homebuyers and other leveraged private funds for affordable housing

Discussion:

During FY 2018-2019, the City of Glendale will preserve affordable housing and increase the affordable housing stock for households with income at 0-80% AMI by implementing or funding the following activities:

- Utilize CDBG and HOME funding for the rehabilitation of owner-occupied housing units and to support Habitat for Humanity in developing new affordable housing units
- Address accessibility barriers for elderly and persons with disabilities
- Implement and coordinate public housing in the City by providing Section 8 vouchers to eligible households
- Provide financial assistance to households facing eviction with emergency rental assistance
- Partner with Community Legal Services to provide training and fair housing services to residents in an effort to help ensure fair housing in Glendale

AP-85 Other Actions - 91.420, 91.220(k)

Introduction

In order to ensure that the City of Glendale's goals and objectives are met, City staff will employ strategies that ensure underserved needs are met, affordable housing is developed and maintained, lead based paint hazards are reduced, poverty levels are reduced, and the coordination of housing and community development activities is conducted. The City will leverage funding from private and other non-federal public resources, identify and secure new funding sources, address homeless needs with local and regional coordination efforts, and address aging infrastructure and public improvements in low and moderate-income neighborhoods to meet underserved needs. Affordable and safe housing will be addressed through providing funding for homeownership, accessibility, emergency financial assistance, public housing, and lead-based paint hazards. The number of families at the poverty level will be reduced by addressing homeless prevention and rapid re-housing for self-sufficiency. The Community Revitalization staff will coordinate local and regional housing and community development efforts in Glendale. City staff will use the Community Development Advisory Committee (CDAC) to prioritize needs and allocate federal resources, and will work with the Maricopa County Continuum of Care to meet needs of homeless persons.

Actions planned to address obstacles to meeting underserved needs

The City of Glendale, like most communities, is faced with a lack of sufficient resources to effectively address underserved needs. During FY 2018-2019, the City plans to undertake the following actions to address obstacles to meeting underserved needs:

- Funding projects and activities that leverage funding from other public and private resources to increase the impact of projects and benefit more low and moderate-income residents
- Provide support for agencies that serve LMI, homeless individuals and families, and persons at risk of homelessness using CDBG and ESG funding
- Benefit low and moderate income neighborhoods by addressing aging infrastructure, other public improvement, and public facility needs
- Continue to participate in regional and countywide efforts such as MAG, the CoC, the outreach group and the ESG Collaboration Work Group to ensure resources are used in a coordinated effort and address the highest priority needs of homeless persons and families
- Apply for new funding opportunities from Federal, State or local sources, and support funding applications for other organizations in the City or region

Actions planned to foster and maintain affordable housing

During FY 2018-2019, the City of Glendale will preserve affordable housing and increase the affordable housing stock for households with income between 0-80% AMI by implementing or funding the following activities:

- Utilize HOME funding for the rehabilitation of owner-occupied housing units and to support Habitat for Humanity in developing new affordable housing units
- Address accessibility barriers for elderly and persons with disabilities
- Implement and coordinate public housing in the City by providing Section 8 vouchers to eligible households
- Provide financial assistance to households facing eviction with emergency rental assistance

Actions planned to reduce lead-based paint hazards

The City will address lead-based paint (LBP) hazards with the implementation of the rehabilitation program. HUD regulations, at 24 CFR Part 35, require that lead-based paint hazards be controlled before the rehabilitation of housing units, particularly if children under the age of 6 occupy the units. The City will conduct the required LBP assessment based on the level of federal funds invested in the rehabilitation of units constructed prior to 1978.

Actions planned to reduce the number of poverty-level families

Primarily, the City will utilize CDBG and ESG funding for homeless prevention and rapid re-housing programs along with services that lead to self-sufficiency. Also, the City will require and ensure that its subrecipients collect, maintain, and report data with regards to the need of clients in order to prioritize actions and resources to address the greatest needs of families below the poverty level.

Actions planned to develop institutional structure

Glendale currently coordinates with several City departments, non-profit organizations, and other public entities to meet the goals and objectives of the Consolidated Plan. In order to continue improving the institutional structures with the goal of maximizing benefits for LMI persons and achieving performance outcomes, the City will continue to participate in local and regional committees, provide and/or support training for staff and providers in the areas of affordable housing, fair housing, economic development, and community development, and pursue closer relations with non-profit housing and service providers.

Actions planned to enhance coordination between public and private housing and social service agencies

During FY 2018-2019, the City will utilize CDBG, HOME, and ESG funding to support both public and private housing programs including programs operated by social service agencies. The City will continue to utilize the services of the CDAC to review applications for funding and make funding recommendations. The housing and supportive services needs of homeless persons will also be addressed by participation in the CoC and funding for social service agencies.

Emergency Solutions Grant (ESG)

Reference 91.220(I)(4)

1. Include written standards for providing ESG assistance (may include as attachment)

The City requires that subrecipients develop written standards that are consistently applied within the agencies' programs. ESG subrecipients must conduct an initial evaluation to determine the eligibility of each individual or family seeking ESG assistance. The eligibility determination is conducted during the intake process and the amount and types of assistance the individual or family needs to regain stability in permanent housing are determined. Subrecipients utilize the HUD published income limits that are updated annually to determine income eligibility for program participation. Documentation is collected to show that the participant lacks sufficient resources to remain in his/her home or enter new housing without ESG assistance. If there are changes in the income of the program participants, subrecipients are required to re-evaluate the eligibility and needs of the households. The City has a program policies and procedures binder which is used to guide its programs. The binder is incorporated by reference. ESG standards for providing assistance are included in the agreements with service providers.

The City is working with the Continuum of Care and the ESG Collaboration Work Group to standardize the contracting, eligibility determination and reporting documentation for the ESG program. The Maricopa Association of Governments (MAG) and Maricopa County Human Services are jointly leading the group's efforts. The ESG Collaboration Work Group also includes the State of Arizona; the cities of Phoenix, Mesa and Glendale; Valley of the Sun United Way, and Community Information and Referral.

2. If the Continuum of Care has established centralized or coordinated assessment system that meets HUD requirements, describe that centralized or coordinated assessment system.

Centralized or Coordinated Assessment System

The Maricopa Association of Governments (MAG) administers the regional Continuum of Care. According to the MAG CoC Regional Committee on Homelessness Governance Charter and Operating Policies, the CoC approved the Service Prioritization Decision Assessment Tool (SPDAT) and the Family SPDAT as the region's common assessment tool. The tool was developed in collaboration with municipalities, homeless services providers, and funders. The goal of the Coordinated Assessment System is to end homelessness quickly and effectively by following a housing first approach. The assessment system provides multiple access points throughout the region, streamlines the referral process, and prioritizes individuals and families with the highest level of needs. The CoC is currently implementing the coordinated assessment system.

Homeless Management Information System (HMIS)

HMIS is an electronic data collection system that facilitates the collection of information on persons who are homeless or at risk of becoming homeless. The HMIS is being coordinated through the Maricopa CoC. ESG subrecipients are required to report program participant-level data such as the number of persons served and their demographic information in the HMIS database, in accordance with HUD published HMIS and data standards, and other community standards as may be adopted by the City of Glendale and/or the CoC.

3. Identify the process for making sub-awards and describe how the ESG allocation available to private nonprofit organizations (including community and faith-based organizations).

The City of Glendale's Community Revitalization Division has an established process for accepting competitive applications from non-profit organizations that carry out activities and implement programs that are eligible for ESG funding. Applications also include grass-roots faith-based and other community organizations. Some faith based organizations such as UMOM and A New Leaf received funding through CDBG and ESG. The Community Development Advisory Committee (CDAC) is a citizen committee appointed by the Mayor and City Council. The CDAC makes funding recommendations to the City Council for community development programs including CDBG, HOME, and ESG. Recommendations are subject to approval by the City Council and become part of the City's Annual Action Plan.

During FY 2018-2019, the City will receive an ESG allocation of approximately \$204,382 of which \$15,328 or 7.5% will be used for administrative costs. The CDAC recommended ESG funding of \$189,054 to the following agencies carrying out homeless prevention activities and operating emergency shelters:

Homeless Prevention Activities - \$75,630:

- A New Leaf – Rapid Re-Housing Services --- \$43,200
- Central Arizona Shelter Services (CASS) – Rapid Re-Housing ---- \$ 32,430

Shelter Operational Costs for Homeless Service Activities - \$113,424:

- Phoenix Rescue Mission - \$21,540
- A New Leaf – Faith House Emergency Shelter Operations --- \$21,880
- Circle the City - \$10,770
- Maggie's Place – The Michael House -- \$16,154
- Native American Connections – HomeBase Emergency Housing - \$10,770
- Streetlight USA – Shelter Operating Costs – Utilities --- \$10,770
- UMOM New Day Centers, Inc. – Emergency Shelter for Families --- \$21,540

Grant Administration - \$15,328:

- Community Revitalization Division --- \$15,328

ESG funding - \$204,382

- 4. If the jurisdiction is unable to meet the homeless participation requirement in 24 CFR 576.405(a), the jurisdiction must specify its plan for reaching out to and consulting with homeless or formerly homeless individuals in considering policies and funding decisions regarding facilities and services funded under ESG.**

The Continuum of Care is governed by a Board, which is the decision making body for the CoC, and receives input from CoC committees including the CoC Regional Committee on Homelessness. The City of Glendale participates in the CoC Regional Committee on Homelessness. The City will meet the requirement at 24 CFR 576.405(a) because at least one homeless or formerly homeless individual serves on the CoC board as well as on the Committee on Homelessness. The Committee on Homelessness is responsible for making recommendations and providing input to the CoC Board.

5. Describe performance standards for evaluating ESG.

The City will evaluate performance under the ESG program primarily by tracking beneficiaries assisted with homeless prevention or rapid re-housing dollars, and individuals and families provided with emergency shelter. The City will also use the timely distribution of funds as a performance standard. Program outcomes will be reported in the Consolidated Annual Performance Evaluation Report (CAPER). The City will monitor ESG subrecipients to ensure that funds have been spent on eligible costs and that the program regulations and requirements have been met. The City will also consult with the CoC on meeting regional goals to end homelessness as identified in the Ten-Year Plan to End Homelessness. The ESG program requires that the City must provide a 100% match from other sources. The City shall ensure that match amounts including other grants, cash, general funds, in kind services/costs are tracked and documented for both its own operations and the operations of its subrecipients under the program.
