

*****FREE CATALYTIC CONVERTER ENGRAVING*****

Catalytic Converter theft has increased significantly throughout the United States in the last year and Glendale has seen a large increase in converter thefts. A catalytic converter is an emission device and attached to your exhaust system and contains precious metals that are sold to dishonest shops. The criminal crawls under your vehicle with a battery-operated reciprocating saw and cuts your exhaust pipe on either side of your vehicle's converter and removes the converter. This process takes just a minute from start to finish and the thieves are stealing them during daytime and nighttime hours.

Midas located at 6021 W. Bell Road has offered a **FREE** service to engrave your license plate number onto your catalytic converter so that officers can identify who the true owner of the converter is. After the engraving, a sticker identifying your car as being engraved will be placed on the back side of your rear-view mirror to deter the thief.

Appointments are required for this service and speak with the Shop Manager, Rob Scheiffele to make your appointment at (602)843-4600. They are open Monday thru Friday 7am to 5pm, and Saturday 7am to 3pm.
