Monday | February 24 | 6–7:30 p.m.

Building Healthy Soil

Chop and drop your plant trimmings, leave the leaves, make compost tea, and go chemical-free! The secret to a productive vegetable garden, food forest, and drought resilient landscape is underneath the surface. Healthy soils include a diverse population of microorganisms that work together to create an ecosystem where plants and their roots thrive. Discover how easy it is to compost and build your own healthy soil with Maricopa County Master Gardener, Stephanie Boizelle.

Auditorium

Saturday | March 22 | 10:00 a.m.–12:00 p.m.

Xeriscape Garden Walk & Talk

Take a leisurely stroll through the Glendale Xeriscape Demonstration Garden that surrounds the Glendale Main Library. Embrace xeriscapes and see living examples of low-water-use plants in-person with Landscape Architect and Watershed Management Group certified rainwater harvesting professional, Kaylee Colter. We recommend bringing a water bottle, wearing close-toed shoes, a hat, and sunglasses.

Auditorium and Xeriscape Garden

Monday | April 21 | 6–7:30 p.m.

Desert Tree Care

Desert trees provide us with many benefits, such as cleaning the air, saving energy and water, providing shade and wildlife habitat, and reducing stormwater runoff. Familiarize yourself with proper tree selection, planting, deep watering, basic pruning, and maintenance with Certified Arborist and Manager from Elgin Nursery and Tree Farm, Jonathan Manning.

Auditorium

Thursday | May 15 | 6–7:30 p.m.

Drip Irrigation Basics

Drip irrigation is the most efficient way to water plants in the desert. Learn about the basic components of a drip system, important irrigation controller functions, plant watering depths, and simple repair and troubleshooting tips with Certified Arborist and Manager from Elgin Nursery and Tree Farm, Jonathan Manning.

Large Meeting Room
