Getting Unbiased Information on Prescription Drugs

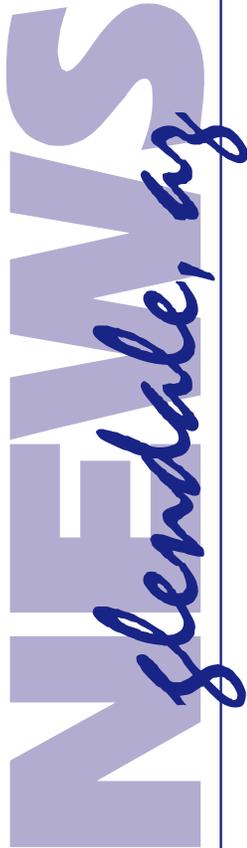

GLENDALE, Ariz. – Prescription drugs can be expensive, even with health insurance. But there are medicines that can effectively meet one’s medical needs and give a better value for the healthcare dollar. How does one find out that information?

The non-profit Consumers Union, publisher of “Consumers Report,” is now providing unbiased information for prescription drugs. Learn about “Consumer Reports Best Buy Drugs Education Project” at 9 a.m. on Saturday, Dec. 2 at Velma Teague Branch Library 7010 N. 58th Ave.

This new service will give consumers accurate, concise information to bring to their next doctor’s visit. It will help open a conversation about drug effectiveness, safety and price. Everyone wants to save money—now they can do that by asking their physician to prescribe a Best Buy Drug.

A project representative will at the library to answer questions. The two-hour program is free. Call 623-930-3431 for more information.
