Communicate with the Glendale Police Department? We have an App for that!

Glendale, Ariz. –The public can now communicate with Glendale Police Department through the use of a smartphone app! Nationally, studies are revealing that mobile subscribers are using apps to obtain information more than browsing the web. Today, the department is launching its first ever smartphone app! The App will help the Glendale Police Department continue to enhance the level service provided daily to our community by placing our services directly at the citizen's fingertips.

“I am excited to announce the Glendale Police Department has yet another communication tool, utilizing the latest innovative technology, to connect the public directly with the Glendale Police Department” – Chief Debora Black

The Glendale Police Department partnered with [WiredBlue LLC](#) to develop the smartphone application, which is called the “**My Police Department**” or “**MyPD**” App. The MyPD App is spreading in popularity nationwide. Over 100 agencies across the nation and Canada are using the MyPD App for their departmental smartphone applications. The Glendale Police Department is one of only two agencies in the state of Arizona to utilize the App.

The MyPD App can be downloaded on most all mobile devices to include iPhone and Android smartphones as well as tablets PCs such as Galaxy and iPads. The MyPD App can be downloaded free of charge by searching for **My Police Department** or **MyPD** in the iPhone or Android marketplace. Users can also download it directly from the Glendale Police website at www.glendaleaz.com/police. Once downloaded, you simply navigate to the Glendale Police Department.

The Glendale Police Public Information Office will be available for on camera comment and a demonstration of the App's features at the media's request.
