## **Programming a Landscape Watering System is Easy as 1-2-3**

**GLENDALE, Ariz.** – Landscapes require more water in the summer, but it is during the seasonal transitions from summer into the fall and winter months when water is often wasted the most.

“As temperatures start to cool, homeowners either forget or are not sure how or when to make the needed adjustments to their landscape irrigation timer,” said Jo Miller, city of Glendale Water Conservation Program Manager. “With cooler temperatures right around the corner, now is an ideal time to learn how to program your timer.”

Find out how to maintain an attractive, yet water efficient landscape by attending one or more of the following free classes offered to homeowners by the city of Glendale Water Conservation Office:

- **September 5<sup>th</sup> from 6:30 to 8:30 p.m. How to Set Your Water Timer**
- **September 8<sup>th</sup> from 9:00 to 10:30 a.m. Pruning Trees and Shrubs**
- **September 18<sup>th</sup> from 6:30 to 8:30 p.m. Landscaping for Small Spaces**
- **October 6<sup>th</sup> from 9:00 to 10:30 a.m. Proper Watering and Care of Winter Lawns**
- **October 16<sup>th</sup> from 6:30 to 8:30 p.m. 20 Recommended Easy Care Plants**

All classes will be held at the Glendale Main Library, 5959 West Brown Street. To register for one or all of the classes, call 623-930-3760. For more
