## GLENDALE CITY COUNCIL APPROVES ARIZONA CARDINALS PARKING PLAN

**Glendale, Ariz.** — Tuesday evening the Glendale City Council approved a plan to fulfill the parking agreement with the Arizona Cardinals and the Arizona Sports and Tourism Authority (AzSTA).

This plan includes three properties to replace the parking spaces now occupied by the Tanger development. Agreements for two of the three properties were approved last night by the council. These two properties include a lot owned by the Arizona Department of Transportation (ADOT) and a lot owned by The New Westgate (TNW). The city will lease both of these properties in order to provide a portion of the parking spaces. The ADOT lot contains 1,087 spaces, and the TNW lot is providing 1,648 spaces. The third parcel identified is the Hampton Inn and Suites Westgate property, with 524 spaces, and an agreement will be presented to council next month.

These three properties will provide 3,259 spaces. Combined with the existing parking lots that the city owns (2,812 spaces) this will total 6,071, thereby fulfilling the city's obligation to provide 6,000 spaces total. *(See attached map for reference.)*

"Westgate City Center is a multi-phase development project," Economic Development Director Brian Friedman stated. "There has always been the understanding that parking will need to be adjusted to accommodate construction while maintaining the required number of spaces for NFL games. We have a contractual agreement to provide these spots and have done so every year since the stadium opened and will continue to do so per the agreement."
