Ad-hoc Citizen Task Force

Add 1.1.1

The task force is spending the next eight months learning about the city's water and sewer enterprises. The task force will be provided with an opportunity to become more familiar with the city's water resource management, water and wastewater operations, reclaimed water and financial planning. Throughout the process, task force members will be asked to offer their input and recommendations about the management, sustainability and value of water to the future of the community.

There is a page on the city's website to provide updates to residents who are interested. Information can be found by clicking 'Citizen Task Force on Water and Sewer' at www.glendaleaz.com/boardsandcommissions.

For further information on the Ad-Hoc Citizen Water and Sewer Task Force, call the Water Services Department at 623-930-2700.
